To Whom It May Concern:

I have recently learned that Churchill Heselton wants to put in a junkyard for cars and other metal items along County Road (near the old sawdust pile). I am one of the owners of 138 County Road (Property 000009-000046-000000) as well as the property known as Junction with the Alder Plains Road (Property 000009-000034-000000) and I am strongly opposed to this idea. I think the installation of a junkyard along County Road will not only have serious negative environmental and property value consequences not only for my family's property but also affect the environmental and property values of others in our neighborhood. I have signed a petition voicing objection to an exception to the current residential zoning which would allow installation of a junkyard.

Please do not allow any variances to be made to allow a junkyard to be created here.

Yours,

A handwritten signature in black ink, appearing to read "Amanda J. Klein". The signature is fluid and cursive, with a long horizontal stroke at the end.
